Hobbies/Interests

- I love Networking with like-minded people, going to Conferences, staying active and learn about personal development. I like reading business oriented books and listening to podcasts.
- I enjoy working on my personal brand and developing entrepreneurial skills by doing business deals with clients, in my spare time.

My Vision

- To learn as much as possible about the IT environment and developing technologies E.g AI automation. I strive to become a better person everyday and staying consistent towards my goal. Furthermore, I want to uplift my co-workers and motivate them to work hard and stay focussed on the company's vision.
